Professional Summary

Passionate and driven Wildlife Photographer with over 3 years of hands-on field experience capturing Nepal's rich biodiversity. Adept at navigating challenging terrains—from the lowlands of Chitwan to the foothills of the Himalayas—to document rare fauna. Possesses a strong understanding of animal behavior, tracking, and ethical wildlife photography practices. Combines field expertise with strong post-processing skills to deliver visually striking, conservation-focused imagery.

Work Experience

Freelance Wildlife Photographer & Content Creator *Self-Employed / 2024 – Present* * Contributed high-quality wildlife prints to local conservation awareness campaigns and eco-tourism blogs.

- Documented over 150+ bird species across Pokhara Valley, Chitwan National Park, and Bardiya National Park.
- Managed a growing digital portfolio, licensing images to local travel agencies for promotional brochures.
- Utilized advanced post-processing software (Adobe Lightroom/Photoshop) to enhance raw images while maintaining natural authenticity.

Assistant Photography Guide *Terai Nature Tours, Chitwan / 2023 – 2024* * Assisted senior international photographers in tracking and safely photographing major species, including the Greater One-horned Rhinoceros and the Bengal Tiger.

- Anticipated animal movements and scouted optimal lighting environments during early morning and late afternoon safaris.
- Maintained, cleaned, and managed heavy camera gear (telephoto lenses, tripods, weather-sealing gear) under harsh field conditions.

Education

Secondary Education Examination (SEE) *Pathshala Nepal Foundation, Nepal* * Completed basic schooling with a strong focus on Environmental Science and Geography, fostering an early passion for wildlife conservation.
